

adley thanksgiving placemat

1. Color each page with designs and colors of your choice.
2. Cut each page along the dashed line creating ~1 inch strips. The blank page will be vertical strips and the pages with the existing pattern will be horizontal. Make sure to keep the vertical and horizontal strips separate from each other.
3. Arrange the vertical strips side-by-side on a flat surface, and tape the top of the strips down onto a flat surface.
4. With the horizontal paper strips, weave under-over through the vertical strips. Push the strips up to the tape line and repeat, alternating with each strip.
5. Remove the tape and adjust the strips so they have a very tight weave.
6. (Optional) If you want a clean edge, take the end of each strip and tape or glue it down on the bottom side placemat.
